Keth. Thursday night, told Snow that he regretted his part in the affair. Keith stated that he knew nothing of a plot between the other firemen and several police officers whose brutality had been exposed by the newspapers, to "get Snow. Keith stated that he entered into the "initiation" of Snow merely as a hazing prank, and earnestly disclaimed any knowledge of a frame-up to run Snow off the job on the police run. For some time the newspapers have printed stories concerning the brutal treatment of prisoners and epilepties by several policemen, and it was learned that these men were determined to make life so uncomfortable for Snow that he could not remain on the police run.

Snow was satisfied with Keith's explanation of the nature of his connection with the affair, and, in consideration of Keith's frank attitude, it is possible that Keith will be reinstated in the fire department without protest.

S. ACNE, TETTER ETC. BUY YOUR PIANO

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S.S.S. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy.
